

Dr. Sivaguru S. Sritharan
Dean, Graduate School of Engineering and
Applied Sciences
Naval Postgraduate School
Monterey, California

Dr. Sivaguru S. Sritharan is the Dean of Graduate School of Engineering and Applied Sciences (GSEAS) and Professor of Mathematics at NPS. Educated at the University of Arizona, (PhD in *Applied Mathematics*), the University of Washington, (*Aeronautics and Astronautics*) and the University of Sri Lanka, Peradenia, (*Honors in Mechanical Engineering*).

Dr. Sritharan also received: first class honors in all the examinations in University of Sri Lanka; the Certificate of recognition for research, Office of Naval Research and American Society for Engineering Education; the distinguished publication of the year award, SPAWAR Systems Center, San Diego; and the 2007 University of Wyoming Arts & Sciences Extraordinary Meritorious Award for Research.

A former Professor and Chair in the department of Mathematics at the University of Wyoming, Dr. Sritharan's interests include Mathematics: Partial Differential Equations, Stochastic Analysis and Functional Analysis and Applications: Fluid Dynamics, Control Theory, and Financial Modeling.

Dr. Sritharan is a member of the American Mathematical Society, SIAM, the American Physical Society, and a member of the Editorial Board of Communications on Stochastic Analysis, Chapman & Hall/CRC, Applied Mathematics and Nonlinear Science Book Series, and Gordon & Breach Publishers Book Series: Nonlinear Problems in Aviation & Aerospace.

Dr. Sritharan is also the author of several publications, including the articles "Large Deviations for the Stochastic Shell Model of Turbulence", co-authored with Utpal Manna and P. Sundar; "Stochastic Analysis of Tidal Dynamics Equation", co-authored in 2007 with Utpal Manna and Jose-Luis Menaldi; and "Lyapunov Property and Local Dissipativity of the Vorticity Equation in L^p and Besov spaces", co-authored with Utpal Manna and published in *Differential and Integral Equations* in 2007.
