

BLUF: Reminder. Beginning tomorrow, March 3, 2021 all remaining employees in education and childcare can begin registering to receive their COVID-19 vaccinations via the COUNTY of Monterey

The Monterey County Office of Education (MCOE) has been working for several months to advocate for the prioritization of the childcare and education sector in receiving COVID-19 vaccines.

While Monterey county's allocation has increased, the amount cannot meet the needs of all in this phase (including childcare and education, agriculture and food, and first responders).

Therefore, obtaining appointments may take some time depending on supply levels and the number of employees in the childcare and education sector, which includes employees from early childhood education, public, charter, private and schools of higher education.

Monterey County will begin appointments for vaccinating educators (all ages) on **Wednesday, March 3**. All employees can find a list of. This site is updated each day throughout the day, if appointments not available please continue to check back. It is best visited in Chrome. Also, please don't forget to update, [NPS Vaccine Tracking](#)
