

POM Vaccine Update

March 4, 2021

1st dose- expected to arrive for 22 March

No 1st doses for the next two weeks (8-22March). Stand by for future announcements for 1st doses. Eligible group will likely be Staff and Faculty. Previous groups as determined by Army were: 65 and over, 64 and under with increased risk, military cadre and non-teleworkers. Also please don't forget to update the [NPS Vaccine Tracking](#),

2nd dose- expected to arrive 08 March

POM is scheduled to receive a 2nd dose shipment next week. Second dose vaccinations will begin on 12 March. I will send an announcement on **scheduling 2nd dose** vaccinations next week. Procedure will likely be the same process: Make an appointment 3-2 days prior to your appt date: <https://informatics-stage.health.mil/CalMedCOVIDApp/> 2) Fill out the DHA 207 form. 3) Bring with you to Appointment with your CAC 4) bring your CDC COVID vaccination card. If there are no appointments available on a specific date, you can schedule your appointment on the next available date. Also please don't forget to update the [NPS Vaccine Tracking](#),

NOTE: You should schedule **your 2nd dose** 28 days after your 1st dose, date is written on the back of your CDC COVID vaccination card, provided during first dose. You can get your 2nd dose as late as 42 days after your 1st dose. However, this is not optimal, please make an effort to schedule your 2nd dose appointment on or as close to 28 days after your 1st dose as possible.

I will continue to provide information as I receive it. As well when POM opens up for 1st doses, I will provide further details as they are available to me. Also please don't forget to update the [NPS Vaccine Tracking](#) thank you again,

Very Respectfully,
Tony
