E. Discussion of Topic

This section should describe the main thrust of the study: What the specific objectives of your proposed thesis research are; What areas will be specifically investigated and what areas will be excluded. Put boundaries around the study; Identify what the study will be (e.g., a computer simulation, an experiment, an electronic design and implementation, a system study). Discuss any limitations of the study.

F. Tentative Chapter Outline

This section should list tentative chapter headings and provide a brief discussion of chapter content. (Note: This can change).

G. Benefit of Study

This section should present the contribution expected from research efforts, what individuals/organizations may be expected to use the results of the thesis (if known) and what problems/issues will be addressed/resolved.

H. Preliminary Bibliography

This section should include a listing of representative materials consulted during preliminary literature search. This should include references to the problem or issue to be studied, prior thesis work, literature references, or other sources of information. The final bibliography will probably be much more extensive.

I. Milestones

This section should include a tentative list of target dates for completion of the successive stages of the project. You will not be held strictly to this schedule; it is a means of conveying to others when major milestones of the study are expected to be completed. The list should include dates during which the following activities are expected to be accomplished:

- | | |
|-----------------------------------|---|
| <i>1. Literature Review</i> | <i>2. Construct Research Approach</i> |
| <i>3. Conduct Research/Travel</i> | <i>4. Analyze Data</i> |
| <i>5. Draft Thesis</i> | <i>6. Final Thesis Submission/Signature</i> |
