

E-Week Short Course

Creative Intelligence:

Intro to Design Thinking WORKSHOP

**Tuesday and Wednesday
September 23-24, 2014**

Naval Postgraduate School
9:00 - 4:00

Bring your own lunch
Location: TBD

- Learn how design thinking can develop your capacity for creative intelligence.
- Use the design thinking process to challenge your biases and ask better questions.
- Explore the potential for rapid prototyping to support decision making.

Course offered by Anne Gibbon, former Research Fellow at the Stanford D School, and Professor Nancy Roberts of the Naval Postgraduate School

“Even when we want to embrace our creative ideas, acting on them presents its own challenges. Creative efforts are hardest at the beginning. To overcome this inertia, good ideas are not enough. You need to stop planning and just get started- and the best way to do that is to stop focusing on the huge overall task and find a small piece you can tackle right away. “

-Tom Kelley and David Kelley, *Reclaim Your Creative Confidence*

The course is limited to 20 students, so enroll early with Professor Nancy Roberts nroberts@nps.edu
