Quick-Start Guide

Access Naval Postgraduate School (NPS) Operating Systems:

• Go to [https://nps.edu](https://nps.edu)
  o Select DoD Certificates under the Technology tab near the top of the screen, and follow the instructions
    ♦ *MAC instructions are located at the bottom of the page*

• Return to the main page and select the Technology tab again
  o Go to Remote Access
  o Follow directions for using NPS Cloudlab

• Go to the Self-Service Password Management page at [https://npspassword.nps.edu](https://npspassword.nps.edu)
  o Select Change NPS Password
    ▪ Enter your NPS account username
      ♦ *Your username will have been sent in an email and is used for all NPS-related logins*
    ▪ Enter your NPS account temporary password according to the algorithm:
      ➢ NN<ccc>--<ssss><fl>abc123
      ➢ Enter NN
      ➢ Replace <ccc> with your curriculum number
      ➢ Enter two en dashes --
      ➢ Replace <ssss> with the last 4 digits of your social security number
      ➢ Replace <fl> with your first and last initial (lowercase)
      ➢ Enter abc123 Ex:
        Jane Smith is in curriculum 311, the last four digits of her SSN are 9876. She would have the password **NN311-- 9876jsabc123**
      ♦ *Passwords are case sensitive*
    ▪ Change your password
      • At least 15 characters long
      • Include:
        o 2 uppercase letters
        o 2 lowercase letters
        o 2 special characters
        o 2 numbers
      • Your password may not contain an actual word in any language
2- *If you are having difficulties, contact the Technology Assistance Center (TAC) via email (tac@nps.edu) or phone (831-656-1046).

- Return to the **Self-Service Password Management** page
  - Select **Edit NPS Profile**
  - Input information and set-up your profile
    - This will allow you to reset, unlock, or change your password any time without contacting TAC.
      - Be sure to remember your answers to the three security questions; these will be required for you to use the password manager

**Duo Security – Two-Factor Authentication (2FA)**

NPS employs a two-factor authentication for access to NPS systems. For this to work, you will link your NPS account with your smartphone. Each time you log in, you will receive a temporary access code to your smartphone.

- Download the Duo App from your smartphone’s app store
  - Allow the app to send you notifications
    - **You can have more than one Duo account on your phone**
  - Allow the app access to your phone camera

- Go to https://duo.nps.edu
  - Click on the **Device Management Portal** button
  - Login with NPS credentials
  - Choose the type of device that has the Duo App
  - Click the **Continue** button
  - Enter phone number
  - Click the **Continue** button
  - Choose the type of phone the Duo App is on
  - Click the **Continue** button
  - Click on the **I Have Duo Mobile Installed** button
  - Scan the “QR” code that is displayed
    - Open the Duo App on the smartphone
    - Tap the plus sign in the upper right corner
    - Allow Duo Mobile to access the camera on your smartphone
    - Aim the camera as if you are taking a picture and hold there
    - Phone will automatically scan the “QR” code
  - Or click on the **Activation** link to get the code emailed to you
  - “NPS Monterey” will appear on the smartphone
  - A green check mark will appear on the “QR” code on the computer
  - Click the **Continue** button on the computer
  - A green **Saved** button will appear; your smartphone is now linked! Next to the **When I login** button, choose the option to **Automatically send this device a Duo Push**
  - Click the **Save** button
Final To-Do’s

- Go to https://my.nps.edu/group/mynps
  - Login with your NPS credentials
  - Click on Python located in the tool bar on the left side of the screen
    - If not visible, click on View More/Settings
      - Login with your NPS credentials
      - Click on My Profile in the tool bar on the left side of the screen
        - Confirm information is correct and edit if needed
        - Click on Addresses and Family
        - Confirm information is correct and update if needed
  - Return to the main screen and click on Web Mail
    - Login with your NPS credentials
    - Check for any email messages
  - Return to the main screen and click on Sakai
    - Select NPS Users Click Here to Login
    - Login with your NPS credentials
**Academics**

**Academic Calendar**

NPS Academic Calendars contain dates for the first day of classes, federal holidays, final exams, and graduation.

**Academic Catalog**

The NPS Academic Catalog is the official source of graduate academic program information.

**Academic Honor Code**

https://my.nps.edu/web/nsa/academic-integrity

Students must follow the Academic Honor Code (NPS instruction 5370.4 series) at all times. The highest standards of honesty and integrity are expected of all students. Plagiarism, fraud, cheating, and verbal or written misrepresentation constitute a violation of the Academic Honor Code. Instructor authorized group activities and projects should rightly acknowledge the efforts of all respective participants. Faculty will clearly state in each course (and/or assignment) how much consultation/cooperation among students is permissible, and must indicate what materials may be used in student preparation for, and performance of, all graded work. While no single list can identify and define all types of academic honor code standards, the following are cited as examples of unacceptable behavior:

1. **Cheating**: Using unauthorized notes, study aids, or information on an examination; looking at another student’s paper during an examination; altering a graded work after it has been returned, then resubmitting it for re-grading; allowing another person to do one’s work and submitting it under one’s own name.

2. **Plagiarism**: Submitting material that in part or whole is not entirely one’s own work without attributing those same portions to their correct source. Student shall ensure all references are properly sited.

3. **Fabrication**: Falsifying or inventing any information, data, or citation.

4. **Obtaining an Unfair Advantage**: Gaining access to examination materials prior to the time authorized by the instructor; unauthorized collaboration on an academic assignment; possessing, using, or circulating previously given examination materials where those materials clearly indicate that they are to be returned to the instructor at the conclusion of the examination.

5. **Aiding and Abetting Academic Dishonesty**: Providing material, information or other assistance to another with knowledge such aid could be used in any of the unacceptable behaviors described above.

6. **Double-submission**: Submitting a single paper to satisfy the requirements of two separate courses without notifying the instructor(s) of the overlap.
7. **Failure to Address Observed Violations of this Code:** Upon witnessing a suspected Honor Code violation, an individual is honor bound to report it through the proper channels. Failure to do so is itself a violation of the Honor Code.

Finally, any act or attempt at retaliation against a student, staff member, or faculty member for raising an Honor Code issue, whether or not the report results in any formal action, will not be tolerated.

Appropriate disciplinary action may include disenrollment, fitness report comments, and a letter to appropriate government agencies or official service branches. Individuals suspecting Academic Honor Code violations are required to inform the appropriate academic/curricular officials.

This code is applicable to both resident and distance learning students.

**Academic Policies**

Students are expected to familiarize themselves with and adhere to NPS Academic Policies. Please pay particular attention to Chapter 6 of the NPS Academic Council Policy Manual, for information regarding student records, grading procedures, course withdrawals, incomplete courses, extended absences, and other such policies.

**Academic Probation/Disenrollment**

Disenrollment may be voluntary, disciplinary, or because of unacceptable academic performance. Students whose grades fall below a GQPR of 3.0 or TQPR of 2.75 will be placed on academic probation. Depending on subsequent performance, the student may continue on probation, be recommended for disenrollment, or be removed from probation. The Program Officer will counsel students as required and forward the request through the Military Associate Dean for delivery to the Dean of Students.

**Add/Drop/Withdrawal Process**

Each student must receive Command/Company Sponsor (CS) approval to make changes (add/drop/withdraw) to their NPS schedule.

*Note: Add/Drop/Withdraw deadlines can be found on the Python home page. Each student is responsible for adhering to these deadlines.*

After approval has been granted, contact the Education Technician or the POC for your program to begin the process.

**Students:**

- Be aware that if you drop or withdraw from a course or program, your sponsoring command or company will be held financially responsible for your class(es) that quarter, regardless of deadlines.
Classroom Conduct

Classroom conduct is expected to be professional, mature, and courteous. “Classroom” is defined as any learning environment, including resident, live virtual tele-education (VTE) classes, and any form of synchronous Web-based instruction. Cell phones, beepers/pagers, and other electronic communication devices need to be muted or secured during all class or lab instruction periods to minimize disruptions.

During lectures and labs, questions are expected, both directly in resident and VTE situations, and through chat, IM, and other means for web-based instruction. Students should seek out professors during office hours for special or extra information, if necessary. Students should extend professional courtesy to fellow students, instructors, and professors regardless of position or rank.

If a professor fails to appear for class at the appointed time, students will remain in the assigned classroom or learning environment for 15 minutes after scheduled class commencement starting time.

For asynchronous and recorded lecture sessions, it is the responsibility of the student to view all lectures in accordance with the stated course schedule.

Course Schedules

To view a course schedule in Python:

- Go to Python
- Click on the Student tab
- Enter your last name
- Click on Matrix to the left of your name
- Select the magnifying glass icon to the left of the course listing
  - A new window will open up with the course and textbook information
  - If your course schedule still reads “Schedule TBD by Department,” check back on a regular basis

Graduation

The NPS Graduation website provides information about rehearsal and graduation times, appropriate attire, directions to NPS, gate access, and more.

Chapter 7 of the NPS Academic Policy Manual specifically addresses the Degree Completion process: https://www.nps.edu/Academics/PolicyManual/1541.htm

Students who do not finish a degree or certificate program with a minimum GQPR of 3.0 and a minimum CQPR of 2.75 will not graduate.

Future Graduation Dates can be found on the Academic Calendar
Instructor-Student Relations

Students are encouraged to consult with instructors and/or Academic Associates concerning problems related to grade computations, lectures, or academic assignments. The chain of command for resolving problems or conflicts in academic matters (grades, lectures, or academic assignments of the instructor) is the professor, the Academic Associate, the Department Chair, and finally the Academic Council, led by the Provost.

The Academic Council represents the final level of appeal. The Program Officer should be kept apprised of situations of this nature and will provide oral or written endorsements when appropriate.

*For further explanation on various roles and responsibilities NPS-wide, visit https://my.nps.edu/group/mynps/resources*

Textbooks

Students are able to view textbook requirements in Python two weeks before the start of quarter

- Go to Python
- Click on the Student tab
- Search using last name
- Click on Matrix located on left side of your name
- Select the magnifying glass icon to the left of the course listing
- A new window will open up and display the courses and textbooks for that AY/Qtr

*Please reach out to your Program Administrator, Program Manager, Student Services Coordinator, or Education Technician for any additional information regarding course material requirements*
GEACSupported Curriculums

The Graduate Education Advancement Center (GEAC) provides support services for a variety of Distance Learning programs at NPS. GEAC student support supplies course materials for students whose sponsors pay for this service.

*All students are responsible for acquiring their course materials unless the sponsor has included this in tuition costs.*

If unsure of your materials-funding status, please contact your Program Sponsor, Student Support personnel, or Program Manager.

GEAC only provides materials that instructors indicate as required. Regardless of materials-funding status, students should stay abreast of Python textbook entries. Instructors often recommend textbooks or software that materials-funded students may wish to obtain on their own.

Materials-funded students will receive their textbooks from GEAC student services roughly 1-2 weeks before the start of each quarter.

In the event of a materials delay on the publisher’s or GEAC’s end, students and instructors will be made aware of the issue. GEAC makes every effort possible, within legal and budgetary constraints, to ensure students will not incur penalties for issues related to delayed textbooks that are beyond their means of control.

Purchasing books for future quarters based on current listings or similar course lineups of students in prior cohorts is discouraged. Instructors may change editions and/or requirements by the time the materials are needed.

Please contact the GEAC Student Coordinators with any additional questions:

GEACStudCoord@nps.edu
Program Modes of Delivery

Asynchronous

NPS Asynchronous classes are taken without any classroom attendance necessary. Instructors post the course material to Sakai where students retrieve the material. The web-based courses are paced week-to-week, but students are granted flexibility in completing coursework each week as they choose. Courses are faculty-led and allow interaction between instructor and other students.

- Time Off or Time Away from Class
  - Please be mindful that NPS Online/Asynchronous courses are instructor-led. If you will be away during the quarter, please notify your instructor immediately of the dates your absence will cover. Failure to do so could result in a drop from the class or an incomplete grade.

Sakai

NPS utilizes the Sakai Collaborative Learning Environment (CLE) --an open source, web-based learning management system that allows instructors and students to communicate, store and retrieve course material, and track progress throughout the course. In addition to course sites, the CLE can host project sites wherein members are able to collaborate and share documents. The CLE is accessible from any web-connected device using your NPS username and password.

- To access Sakai:
  - Follow the link https://cle.nps.edu
  - Login using your NPS credentials
  - If you cannot login – contact TAC

All distance learning students will receive an NPS e-mail account regardless of their program. Students that started prior to AY18Q1, and who do not have an NPS e-mail account, may contact TAC to have one created. This will be your primary email for communications regarding NPS.

Synchronous

Students and instructors can interact in real time using Collaborate or Video Tele-Conferencing (VTC), aka Video Tele-Education (VTE). These tools allow everyone in a class to interact as if they were sitting in the same room.

Video Tele-Conferencing (VTC)

VTE classes are delivered using live video-teleconferencing (VTC) and allow for effective two-way communication between instructor and students during class periods.

VTE courses are recorded, and with instructor approval, are available for review at https://podcast.nps.edu. Recordings are posted within 24 hours after the event and are available for viewing until the end of the quarter.
Students can stream or download Podcast videos for viewing off line:

- Visit [https://podcast.nps.edu](https://podcast.nps.edu)
- Log in with your NPS credentials
  - Click on the “Current” tab
  - Choose the desired course session

*Recordings are available for your convenience and are NOT authorized for distribution to anyone or any media outside of the course*

Some class recordings may not be approved for Podcast. If you do not see your class, please contact the NPS VTC Office for further information.

**VTC Location Change**

If for any reason, permanent or temporary, a VTC site must be changed, it is imperative that the NPS VTC Coordination team be notified in a timely manner, as they will no longer open ports that have not been confirmed in advance.

To register a new site, email the NPS VTC Coordinator at vt@nps.edu, and provide the following information:

- Name of base
- Your name
- Your email address
- Your phone number
- The name of the VTC staff at your location
- The email of the VTC staff at your location
- The phone number of the VTC staff at your location
- Your class number and/or instructor’s name

Failure to provide this information may result in an inability to attend class as scheduled

For additional questions or concerns, call the NPS VTC Coordinator at (831)656-2315 (commercial) or 756-2315 (DSN)

**FAQs**

**What time can I connect to my VTC Class?**

You may connect ½ hour prior to the class start time.

**Who do I contact if I have problems connecting?**

Call the NPS VTC Office for connectivity issues. Call 831-656-2315 Commercial, or DSN 756-2315. If it is determined that there are equipment issues in your room, you will be asked to contact the VTC Technician in your area.
Should we perform a connection test prior to the class start date?

Yes. Contact the VTC Technician in your area to set up a connection test with NPS VTC staff. This will determine if the equipment in your classroom is in operational order.

What if I am in an area that does not have a VTC facility?

Notify your Instructor and Program Manager or contact the NPS VTC Office. We will suggest another way to attend or have you call into class by telephone.

What if I miss class due to an emergency?

A recorded version will be available at https://podcast.nps.edu

What if my login password is not working?

Utilize the NPS Self-Service Password Manager: https://npspassword.nps.edu

What do we do if there is a “snow day” and we cannot get to our VTC Facility?

Usually students who cannot reach their VTC facility due to extreme weather or disaster-related issues will call in by telephone. If you cannot call in, you can watch the recorded video from Podcast.

Who do I contact if I need additional help?

Your Program Manager and/or the NPS VTC Office
Collaborate

Some DL class lectures are offered via Blackboard Collaborate or Zoom. These products are web-based collaboration systems that support video, voice, text chat, an interactive white board, application sharing, document sharing, and more, over IP. Please visit the Collaborate wiki site here.

Zoom

Zoom is a cloud video conferencing tool that works from either an installed client or from within your browser. Zoom is supported by ITACS as a learning tools, in connection with Sakai LMS, to enable a better learning and instruction experience.

View recordings of the Zoom training sessions here.

FAQs

Do I need a microphone and camera for my DL class?

You will need to have either a microphone attached to your computer or the ability to use your phone to dial into the session. This allows students to participate fully in synchronous DL classes. The use of a microphone-headset combination is highly recommended. Video camera requirements vary from instructor to instructor.

Will my instructor be using Collaborate or Zoom for my DL course?

Collaborative learning platform use is left to the instructor’s discretion. They will let you know which tool to use in order to connect to your classes.

How can I test my Collaborate or Zoom connection?

Call (831)656-2020, M-F, 0700-1700, and a technician will assist you in testing your connection. Alternatively, go to the Collaborate wiki and use the NPS Collaborate Test Session to check your connection. For Zoom, please call the number above for assistance.

Is personal guidance or orientations available for Sakai, Collaborate, or Zoom?

Yes, please email clehelp@nps.edu or call (831)656-2020, M-F, 0700-1700, to set up a time with a technician.

Do I need to download any software to use these tools?

Collaborate requires that you either have Java installed and active, or that you can download the Blackboard Collaborate Launcher tool. Additionally, you will need to be able to download a tiny jnp file to start the session. Some secure locations may not allow this. For Zoom, no software is required for students, but audio and video functionality aren’t available in the browser-based version when run through Internet Explorer.

What are the hardware and software requirements?
OS - Any Windows or Macintosh computer can work with Collaborate and Zoom if you have a stable network connection.

- **IOS or Chrome OS, including iPad, iPhone, Android or Chromebooks, are not recommended or supported by Sakai technicians. While some people have had success in using these, testing indicates that the results are inconsistent at best.**

**Hardware** – A microphone is required for classroom participation. Video camera requirements vary by instructor.

**Browsers** - Internet Explorer tends to be problematic with the collaborative learning platforms that NPS supports. It is recommended that these platforms be launched using Chrome or Firefox.
Registrar

Academic Records

The Registrar maintains the school’s official academic records. Students are responsible for meeting all deadlines for adds, withdrawals, incompletes, thesis submissions, etc.

A student’s academic record is his/her own responsibility, and it must not be assumed that professors, Education Technicians, Academic Associates, Program Officers/Program Managers, or others are taking care of these matters.

Diplomas, Certificates, and Transcripts

Diplomas, certificates and final transcripts are mailed approximately 90 days after graduation or completion of the Certificate Program.
Please ensure that your correct Transcript/Diploma/Certificate mailing address is updated in Python before your final quarter at NPS.

Students can make changes to their mailing address and may designate how they would like their name to appear on a Diploma or certificate:

- Log into Python with your NPS credentials
- Click on the Student Folio tab > Student Information link
- In General Student Information, select Edit This Section
- Update the Diploma Name Format field
- Remember to Save Changes

To request additional copies of transcripts from the Registrar’s Office, visit the website at: https://www.nps.edu/Academics/Admissions/Registrar/Transcripts/Transcripts.html

Students can access and print unofficial transcripts by selecting the Student Folio tab in Python and clicking on the My Transcript (Unofficial) link.

Emails and Outreach

Students can expect to receive automated e-mail reminders and instructions often throughout the quarter. These messages will be sent from “NPS Registrar’s Office,” an indication that the subject is Registrar-related, and pertains to deadlines, adds/drops, course evaluation forms (CEFs), etc.

Course Evaluation Forms (CEFs)

All students must submit CEFs to the Python Student Information System each quarter. The CEF window opens two weeks before the end-of-quarter and must be submitted no later than the Sunday after the graduation ceremony date by midnight PST. For security reasons, Python can only be directly accessed through the NPS Intranet Homepage from computers connected to the GlobalProtect VPN. If you are connecting to this page from off-campus, such as from your home or workplace, please refer to the following instructions for Remote Access.
• Gain remote access to Python
  o Refer to the section on **Remote Access to NPS Networks**

• Once in Python:
  o Click on the **Student Folio** tab
  o Select **My Matrix**
    ▪ Choose the current quarter and course number for which you would like to complete a CEF

  ◆ **Note**: If one or more of your courses show an **ABC** button, either a CEF is not required for the course, or your instructor has not yet submitted a grade.

  ▪ Click on the **CEF** button
    • Click on the **Select** button
    • The Course Evaluation Form (CEF) window will appear.
      o Answer questions by clicking on the appropriate radio button.
      o Enter any comments (optional)
      o Select **Submit CEF Responses** button when finished

    • **Once you select Submit CEF Responses, you cannot undo what has been entered; make certain that your responses pertain to the correct course and instructor.**

    ▪ A CEF confirmation window will appear
      • If you have another CEF to complete, or if there are multiple instructors, click on the **CEF** buttons to go through the steps again

**FAQs**

**When Can I View My Grades?**

Students will not be able to view grades in Python until CEFs have been completed and the instructor has submitted all grades. Instructors will not be able to view anonymous CEF results in Python until all grades have been submitted, AND the grading window has closed.

**What if I am late?**

Log into Python with NPS credentials
• Click on **Student Folio** tab
• Click on **My Matrix**
• Look for the current quarter and course number for which you would like to complete a CEF
♦ If one or more of your courses show an ABC button, either a CEF is not required for the course or your instructor has not yet submitted a grade.

• Click on the Late CEF button

How Can I Find My Curriculum Code?

You may need to know your curriculum code (a three-digit number) for password purposes. For example, the Master of Science in Systems Engineering curriculum is 311. If you are enrolled in multiple curricula, your curriculum code will be your primary curriculum.

To find your curriculum code:
- Go to Python
- Click on Student Folio tab
- Click on Student Information
- Your curriculum number will be listed in the Curriculum Assignments section

What about Other Web Browsers?

We recommend that you use Google Chrome or Internet Explorer browsers.

I'm having technical issues logging in to Python. How Can I Enter My CEF?

- CEFs can only be completed via Python. Refer to Remote Access to NPS Networks for more information

For Python-specific issues, such as incorrect data, please be sure to contact your appropriate NPS Program Officer or Program Manager for assistance.
Technology

Technology Assistance Center (TAC)

The Technology Assistance Center (TAC) provides a self-help site to allow students, faculty and staff to perform many computer support tasks. The site contains over 100 pages in five categories: Windows, Mac, Linux, Mobile Devices, and Forms. Please login with your NPS credentials at https://wiki.nps.edu/TAC.

NPS Network Accounts

All NPS students will receive an NPS network account. Account usernames and passwords (credentials) are for accessing the student management system, Python, NPS email accounts, Sakai CLE for course material, ITACS software download, and the NPS Dudley Knox Library.

For students who started prior to AY18Q1 and do not have an NPS e-mail account, contact TAC to have one created. This will be your primary email for communications regarding NPS.

If you experience trouble logging in, or have lost your information, contact the NPS Technology Assistance Center (TAC) at tac@nps.edu or 831-656-1046 / DSN 756-1046.

After 30 days of inactivity, an NPS account will be disabled. Contact TAC to re-enable, and once it is re-enabled, the user has until 0600 PST the next morning to log in. Otherwise, the account automatically becomes disabled again and the user will have to contact TAC and submit another request.

NPS Account Username

Depending upon your program’s support services, you may or may not receive an email informing you of your username. For those who must determine this on their own, the username follows the algorithm:

<<first name>>.<<<last name>> (i.e. john.smith)

If you have are experiencing trouble logging in with a username formulated by using the above example, please contact the NPS Technology Assistance Center (TAC) for assistance in determining if there have been extenuating circumstances applied to your account/username (account has not been created yet, an extra digit has been added to your username, etc.)

NPS Account Temporary Password

Passwords are case sensitive

- The algorithm for the temporary password is: NN<ccc>--<ssss><fl>abc123
- NN<ccc>--<ssss><fl>
Enter NN
Replace <ccc> with your curriculum number
Enter two en dashes --
Replace <ssss> with the last 4 digits of your SSN
Replace <fl> with your first and last initial (lower case)
Enter abc123

Example: Jane Smith is in curriculum 311 and the last four digits of her SSN are 9876
Her password is NN311--9876jsabc123

• International Students
  o Contact the International Graduate Programs Office (IGPO) to request your Student Control Number (SCN) at 831-656-2186 or intldept@nps.edu.
  o The last four digits of your SCN will replace the “ssss” in the temporary password algorithm.

At first log in, you will receive a prompt to change your temporary password (proceed to the NPS Self-Service Password Manager instructions below).

For new accounts, the temporary password expires after 90 days. If your password expires, conduct a reset through the NPS Self-Service Password Manager.

NPS Self-Service Password Manager

This allows students, staff, and faculty members to reset or change passwords and unlock their accounts. The password manager uses a question-and-answer-based security system for authentication and takes only a few minutes to set up.

Be certain to remember your answers to the three security questions during setup; these will be required for you to use the password manager henceforth.

Go to https://npspassword.nps.edu

• Select the Change Password button
• Enter your user name
• Enter your current password
• Select login
• Create a new password and select the Change Password button

NPS Password Criteria

Passwords must contain at least fifteen characters and adhere to the following parameters:

• 2 - Lowercase letters (a, b, c…)
• 2 - Uppercase letters (A, B, C…)
2 - Numbers (1, 2, 3…)
2 - Special characters (#, *, &…)

Passwords may not contain a word in any language. Passwords will change every 90 days.

For issues relating to your password, contact the NPS Technology Assistance Center (TAC).

E-mail

NPS Email is accessible through any web browser

- Visit [https://mail365.nps.edu](https://mail365.nps.edu)
- Login with your full NPS email address (username@nps.edu) and your NPS password

Once a student's account exists in the NPS network, their email address becomes the primary means of communication by which staff and faculty will inform and attempt to reach them.

*Please be sure to check and answer emails often*

Additional support information regarding email is available through the TAC or the following wikis:

Windows-supported devices: [https://wiki.nps.edu/display/TAC/Email+Support](https://wiki.nps.edu/display/TAC/Email+Support)
Apple-supported devices: [https://wiki.nps.edu/display/TAC/E-mail](https://wiki.nps.edu/display/TAC/E-mail)

Remote Access to NPS Networks

NPS CloudLab

The NPS CloudLab enables users to access various internal websites and applications including the NPS Intranet, Matlab, Python, SharePoint, Student Muster, Course Evaluation Forms (CEFs), and more, while off-campus. This virtual desktop requires only a web browser and an internet connection.

To use NPS CloudLab:

- Visit [https://cloudlab.nps.edu](https://cloudlab.nps.edu)
- Select CloudLab HTML Access for Online Virtual Desktop OR
- Select Install CloudLab Client to download VMware client (Windows or Mac) or mobile application (iOS, Android)
- Enter your NPS username and password

For additional details regarding NPS Cloudlab and other remote access options, or to download the DoD Root Certificates, please visit: [https://www.nps.edu/Technology/RemoteAccess/index.html](https://www.nps.edu/Technology/RemoteAccess/index.html)
Virtual Private Network (VPN)

A VPN creates a secure connection to the NPS internal network.

NPS supports connections from Palo Alto Networks GlobalProtect (SSL) VPN client, as well as from the GlobalProtect VPN (IPSec) client. GlobalProtect utilizes Duo Security's two-factor authentication.

Either client will allow you to:

- Access internal websites/applications including the Intranet, Python, Student Muster, and Course Evaluation Forms (CEFs).
- Map network drives (Accounts for students starting in quarter 3 of Academic Year 2020 and beyond will not have “H:" drives).
- Remote desktop to computers located on campus.

Since your remote computer connects to the NPS network, it must meet certain security requirements. NPS requires the application of operating system security patches and up-to-date anti-virus software.

Many handheld devices, including the iPad and iPhone, have native support for the GlobalProtect VPN (IPSec) Client. For instructions and information regarding Duo and GlobalProtect (SSL and IPSec), utilize the links below.

- [Duo Security Two Factor Authentication](#)
- [GlobalProtect VPN](#)

- NPS Login is required to access these pages.

Python

Python is the official student-management system. It is used to maintain your academic record while at NPS. Through it, students can do the following:

- Update personal information (e.g., changes in rank, address changes, your name, etc.)
- Access your academic record to view grades and print unofficial transcripts
- Submit quarterly Course Evaluation Forms (CEFs)
- Request to add, drop or withdraw from a course

Python Access

Visit [https://cloudlab.nps.edu](https://cloudlab.nps.edu)

- Once Cloudlab is established go to [https://Python.nps.edu](https://Python.nps.edu)
- Select Python, found under My Quick Connect
• If Python is not visible here, select View More/Settings

Additional options for accessing Python are located on the Technology web page at https://nps.edu/web/technology/remote-access

  o Navigate down to Additional Resources and select the NPS Intranet Homepage link
  o Login with your NPS credentials

For any additional problems, contact the NPS Technology Assistance Center (TAC)

It is very important that you keep your student information up to date in Python. Each time you relocate, change a phone number, mobile number, email or shipping address, you must make these updates in Python.

  • Enter your last name
  • Select StuInfo to the left of your name
  • Click on appropriate pencil icons to update fields
  • Remember to Save Changes

Software Library

Application software (i.e. MS Office, Visio, Project etc.) is available for download from the NPS Remote Software website. You will be required to enter your NPS credentials when accessing this page.

Prior to downloading, ensure you have the privileges to install applications. If unsure, or if you are experiencing problems, please contact your local computer administrator.

Software Requirements

Most instructors use MS Word documents to distribute information. As such, it is recommended that you can open MS Office documents, as well as Adobe Flash player v7, or later.
NPS Dudley Knox Library

Library Services

The Naval Postgraduate School’s Dudley Knox Library supports your learning and research by providing access to relevant, high quality scholarly resources, tools, and services. Follow the links below to learn more.

- **Get a library account**
  - View & renew items
  - Place holds and recalls
  - Change your contact info
  - Set favorites, save searches
  - Get remote access to NPS-licensed resources

- **Get a quick start on your research**
  - Find top choice article database:
    - Systems Engineering
    - Homeland Security
    - Business, Management &
    - See all Research Guides

- **Get remote access**
  - Use CloudLab or VPN
  - Login with your library credentials

- **Find NPS theses, ebooks & more**
  - Public and restricted theses
  - Project reports (capstones)
  - EMBA project reports
  - Books, ebooks, and more

- **Request article or book**
  - Request what you need and we’ll send it to you

- **Have a research question? Ask a Librarian**
  - Search the FAQ
  - Call, email, chat, text, book a librarian, tutorials

In order to access all Dudley Knox Library resources, use VPN or log in with your NPS credentials.

See the [Library's Remote Access Information](#) page for more information.
**Graduate Writing Center**

The Graduate Writing Center (GWC) teaches you how to write more academically, professionally, and efficiently—whether for a class paper, policy memo, lab report, midterm and final exam, comprehensive exam, capstone, or thesis. Our coaching, workshop, and online resource services span the complete writing process: brainstorming, researching, outlining, organizing, drafting, citing, revising, and polishing the final product. We also help students learn how to read effectively and efficiently, take notes, manage academic projects, develop and deliver classroom and technical presentations, and assess sources.

We support you through one-to-one coaching for unrestricted and classified papers, specialized workshops, and a wide range of online resources. Email us for assistance at writingcenter@nps.edu or call us at 831-656-3682.

**One-to-One Coaching**

To learn about the coaching process, visit our coaching page. For an overview of how DL coaching works, visit our DL coaching page. Several of our coaches have doctoral degrees and most have master’s degrees. All are highly experienced and subject matter experts in writing and critical thinking.

We coach students seven days a week; view hours and schedule appointments on our website at https://nps.edu/web/gwc/. Hours are set widely enough to accommodate the vast majority of students who have fulltime jobs or are in different time zones. More details are included in the Coaching FAQ below.

**Specialized Workshops**

The Graduate Writing Center offers two dozen practical, skill-building workshops in the early weeks of every quarter. If you’re on campus, we encourage you to attend. Each workshop runs 60–90 minutes. Sign-up is also in WCOnline, on the Workshops calendar. See our complete listing of workshops at https://nps.edu/web/gwc/resident-workshops.

Because most DL students can’t take advantage of our live workshops, we have filmed 15 of them and continue to add more. Access them at https://nps.edu/web/gwc/dl-workshops. *Foundations of Academic Writing*, a four-part, 90-minute presentation designed to help you understand graduate writing expectations and writing process, is mandatory for all new students and can be accessed online here: https://nps.edu/web/gwc/quarterly-presentation.

**Self-paced Learning Resources**

Visit our expansive writing resources repository: https://my.nps.edu/web/gwc/resources.

You’ll find quick tips, comprehensive writing guides, videos, handouts, and book references on over 100 different writing-related topics, from argumentation to using active voice, and specialized resources by discipline. Finally, check out the Related NPS Resources link for the Thesis Processing Office, Dudley Knox Library, Teaching and Learning Commons, Academic Honor Code, copyright guidance, human subjects research, iThenticate plagiarism-check service, a searchable database of over 32,000 NPS theses, and more.

**Citation Support**

The GWC coaches and workshops help you incorporate source material into your own work. We clarify the rules and norms, teach techniques for making your own contributions evident and debating your sources, and guide you on best practices for quoting,
paraphrasing, summarizing, and avoiding copyright violations.

For help with citation mechanics and citation styles, your new best friend is the library’s Citation Guide page. Either click the orange How to Cite button on the library’s home page, or go to https://libguides.nps.edu/Citation.

This page has tabs for the most used styles at NPS. For each style, it provides an array of examples for the types of materials most cited in NPS work, and some of the most important rules.

Upon request, writing coaches can run your draft papers and thesis chapters through iThenticate, a powerful plagiarism-checking software. We review the program’s report, which takes practice to understand, and guide you on how to make corrections to verbatim plagiarism and insufficient paraphrasing—before you submit your papers to your professors. Just ask for this service when making an appointment with a writing coach.

For more information, see our iThenticate FAQ.

Coaching FAQ

How Do I Get Coaching on My Writing?

1. Complete a simple, one-time registration at WCONline: https://nps.edu/web/gwc/wconline-redirect.
   - Your NPS email account must be used as the login name, although you are welcome to communicate with your coach through an alternate email address
   - WCONline is for making, editing, or canceling appointments (use email to communicate and share files with your coach)
   - For additional questions or assistance, contact us at writingcenter@nps.edu, or (831) 656-3682

2. Log in (automatic after registering)

3. WCONline opens to the current-week coaching calendar. For making future-week appointments use the Next Week button at the top

4. Click on a white square on the calendar to make an appointment with a writing coach (times are PST). Try to be proactive in making appointments. During busy weeks of the term, we can be filled up by the beginning of the week

5. In the appointment pop-up, fill out the page as completely as possible. Let us know what you want to accomplish in the session
   - Appointments are 30 minutes by default but can be extended to 60 minutes
   - Provide your phone number so we may reach you at session time; your coach will call you from any variety of offices
   - Let us know if you prefer to use telephone, Zoom, or MS Teams for your session
6. Click the **Save Appointment** button. You will receive auto-email confirmations
   - After you make an appointment, your calendar square will show as yellow

7. Appointments can be canceled in the same way
   - Click the yellow square to open the appointment form, then select **Cancel this Appointment**
   - If canceling, please try to do so as far in advance as possible to give other students a chance at the appointment

**How Do I Prepare for the Coaching Session?**

1. Email your assignment prompt, outline, paper, or thesis chapter to your coach 24 hours ahead of the session, if possible.
   - Sending just a paper is also fine
   - If you simply want to talk about getting started, the writing process, writer’s block, or graduate-school expectations, no paper is needed

2. If you send in a paper, the coach will mark it up and email you the mark-up before the coaching session
   - The coach will then contact you by phone, Zoom, or MS Teams at your appointment time, and both parties will consult the mark-up simultaneously

3. After the session, the coach will email you any additional notes or resources

If you are ever in Monterey, be sure to visit us on the first floor of the Dudley Knox Library for a drop-in or scheduled appointment. Drop-in hours are 1000–1400, Monday through Friday. **We would love to meet you!**
Thesis Processing Office

The Thesis Processing Office (TPO) reviews and publishes all NPS theses, dissertations, capstone reports, MBA reports, and joint applied projects. TPO helps students meet the NPS formatting, citation, and compliance requirements and ensures their work is publication ready.

Please visit the TPO website in the quarter you are required to submit your thesis proposal form for help with setting up and using your Python thesis dashboard. Revisit the TPO website periodically, and at least two quarters before you intend to graduate to better plan your final quarter: https://nps.edu/web/thesisprocessing.

The site includes step-by-step instructions for the Python thesis dashboard, thesis process, FAQs, contact information, citation styles, citing responsibly, distribution statements, and a myriad of other resources to ensure your research paper reflects your hard work and NPS’s style.

Thesis Processing Guidelines

To graduate on time, distance-learning and resident students follow the same guidelines and due dates for submitting their thesis documents to TPO for publication processing. Your degree programs will have additional guidelines, milestones, and due dates, which may be earlier than those established by the TPO.

Students are required to use their Python Thesis Dashboard to designate their selected advisors and route their Thesis Proposal Form (TPF), as well as to complete their thesis processing requirements in their final quarter.

To help you plan, your thesis dashboard contains milestones with corresponding due dates.

Return to view the mandatory online thesis brief in your final quarter. Contained in the video are answers to many of your questions regarding the submission process, SharePoint, thesis template, final approval form, formatting instructions, and important dates.

After viewing the video, ask your Education Technician for a TPO Brief attendance code number to enter on your thesis dashboard in the Requirements section.
**Miscellaneous**

**Alumni**

We invite you to stay connected to NPS and your classmates by joining our Online Community. It's free, and it only takes a few moments to create an account. Keep in touch and keep us informed when you move, change jobs, or reach new milestones in your life and career. Keep up to date by visiting the Alumni website [https://www.nps.edu/Alumni/index.html](https://www.nps.edu/Alumni/index.html), where you'll find alumni news and notes, profiles of successful alumni, and news of NPS programs and activities.

NPS alumni can influence generations to come by providing inspiration, mentoring opportunities, and continued support of graduate education. Your involvement as one of our alumni enhances our reputation and strengthens the Naval Postgraduate School's programs and research.

**Disability Services**

If you are a prospective student with a disability that requires a reasonable accommodation, please contact your servicing Human Resources Office Specialist and your NPS DL POC for coordination of your needs with the NPS HR/EEO Disability Coordinator. Every effort will be made to provide your requested accommodation.

Degree and Certificate Student Checklist

☐ Ensure NPS has received funding/tuition (if required)
☐ Attend orientation (if announced)
☐ Test Collaborate/VTE connection (for programs that include synchronous courses)
☐ Log in to your NPS Network Account and change your temporary password
☐ Log in to Python
☐ Verify matrix (your courses may not appear until Python is opened for scheduling approximately 1 week prior to the start of the quarter)
☐ Verify personal information
☐ Add/Verify work address (if outside the U.S., please include APO, zip and country)
☐ Log in to Sakai
☐ Ensure courses are listed (e-mail instructor if classes do not appear two days prior to class start date)
☐ Log in to Webmail
☐ Course Materials received (for those whose command/company has included funding for course materials)
☐ Purchase textbooks (if you are not funded for course materials)
☐ Attend classes
☐ Learn thesis processing guidelines - https://my.nps.edu/web/thesisprocessing (applies to degree programs requiring a thesis)
