

The background of the slide is a blue-tinted photograph of an aircraft hangar. In the center, a small white aircraft with blue markings and the registration 'N56AU' is visible. To its left, a large vertical banner reads 'Orion'. In the upper left, an 'Aurora' logo is visible on a wall. The hangar floor is cluttered with various equipment, including tool carts, a motorcycle, and other aircraft parts. The overall scene suggests a high-tech aviation or defense environment.
