**JIFX 23 – 3**
1 – 5 May 2022
NPS Field Laboratory at Camp Roberts
Event Focus Area: **Autonomous Logistics Enabled by AI/ML**

**Concentration Areas:**
- Logistics in a contested environment
- Signature management
- Supply chain data management

**Research Challenges:**
- Undersea vehicle maintenance, monitoring, and prediction systems
- Artificial Intelligence based UXO detection
- Runway detection methods and systems
- Data collection for post-mission after-action analysis
- Signature reduction in visual, infrared, radio frequency, acoustic, and digital/cyber domains for currently fielded and future systems
