

***Examples of Existing Research Funding Opportunities relevant to Climate Change:***

Research relevant to ONR Core Programs: [Water Scarcity](#); [Navy Prediction Capability](#)  
Innovative Naval Prototype: [A Blue Arctic](#); [Seasonal Ice Observing](#)  
National Oceanographic Partnership Program (NOPP): [Hurricane Impacts](#)  
Multidisciplinary University Research Initiatives (MURI): [Sea Level Rise](#)  
Departmental (Code 32) Research Initiatives (DRI): [Climate Modeling](#)

***Core and DRI Submissions under Long Range BAA (after planning letters to programs)***

***MURI and NOPP Programs have Individual RFPs.***

MURI Topics are released annually. Proposals from teams of multidisciplinary researchers.

<https://www.nre.navy.mil/education-outreach/sponsored-research/university-research-initiatives/muri>

NOPP funding opportunities can be found through the NOPP program page (below). Topics are specific to announcements and are identified through interagency discussions.
