

## COMBINED NAVAL ADDRESS ON CLIMATE, ENERGY & ENVIRONMENT

# Rising Seas: National & Global Security Challenges

March 26, 2024 / 1230 - 1320 PM ET  
John Englander / Virtual via Zoom

### About the Speaker

John Englander is an oceanographer and author of two highly acclaimed books about climate change and rising sea level. The latest is [Moving to Higher Ground: Rising Sea Level and the Path Forward](#). Englander has led many fact-finding expeditions to the Arctic and Antarctica. His first dives under the polar ice cap were in 1985. He has given high-level briefings about rising sea level to the U.S. Congress, the US Naval Academy, to military leaders of all eight Arctic nations, to corporate executives, and professional societies. He has been CEO of several ocean-based organizations, including The Cousteau Society. In addition to his many media interviews, his popular lectures span from TEDx, to London's Royal Institution. Englander is President of the Rising Seas Institute, a nonprofit advancing adaptation to rising seas through better understanding of the science, engineering, economics, and risk. John is a Fellow of The Explorers Club and the London-based, Institute of Marine Engineering, Science, and Technology. He lives in Boca Raton, Florida.
