

COMBINED NAVAL ADDRESS ON CLIMATE, ENERGY & ENVIRONMENT

Climate Challenges in the Caribbean Region

January 22, 2024 / 1200 - 1300 PM ET

Colonel Telbert L.A. Benjamin

Rear Admiral Antonette Wemyss-Gorman

Virtual via Zoom

About the Speakers

Colonel Telbert L.A. Benjamin is Chief of Defence Staff of the Antigua Barbuda Defence Force. He was commissioned as a Second Lieutenant in 1997 and deployed in support of regional security efforts including Caribbean Disaster Response

Unit after Hurricane Ivan and the Regional Security Systems to Barbados, St. Vincent and the Grenadines. He has served as Platoon Commander, Tactical Advisor, Commanding Officer and Vice Chief of Defence Staff. He holds a BS from the University of the West Indies, a MMAS from the U.S. Army Command and Staff College and a MA from Webster University.

Rear Admiral Antonette Wemyss-Gorman is Chief of Defence Staff in the Jamaica Defence Force (JDF). She is a pioneer service woman in the JDF, being the first female officer to attain a Flag rank. She joined the Force in 1992

and completed her professional development training at the Britannia Royal Naval College, HMS Dryad UK, and US Naval War College. During her 15 years on-board ships in the JDF Coast Guard, she deployed to Haiti, the Bahamas, Cayman Island, Dominican Republic, Curacao and other islands on military and diplomatic missions. She holds a Masters Degree from the University of the West Indies.

The Combined Naval Address on Climate, Energy and Environment is a joint effort by the Naval Postgraduate School, Naval War College, Naval Academy, Naval Community College and Marine Corps University to share perspectives and enhance educational opportunities in the intersection of climate, energy and environment with national security.

This Combined Naval Address supports broader Department of the Navy climate diplomacy efforts.
