

AY26 CS Advanced & Non-Core Course Projected Offerings

Fall	Winter	Spring	Summer
CS3670	CS3690	CS3670	CS4324
CS3690	CS4321	CS3690	CS4684
CS4313	CS4325	CS4317 ¹	
CS4326 ²	CS4333	CS4323	
CS4340	CS4537	CS4330	
CS4531 ³	CS4677	CS4558	
CS4558	CS4679	CS4600	
CS4600	CS4684	CS4678	
CS4925		CS4920 ⁴	
CS4926		CS4925	
Non-CS Courses ⁵			
CY4710	CY4700	CY4710	CY4700
	CY3650		MV4025

Notes:

- Course offerings are subject to change during the year and are predicated on instructor availability and sufficient student demand.
- CS students taking the MOVES-Option Track should contact Professor Chris Darken, the MOVES AA, for information about MV course offerings.

¹ CS4317 (Language Systems) is awaiting Academic Council approval. For now it can be added as CS4921 taught by Dr. Rowe.

² CS4926 (AI at the Edge) is awaiting Academic Council approval. For now, it can be added as CS4922 taught by Dr. Orescanin

³ CS4531 (Data Operations and DevSecOps) is awaiting Academic Council Approval. For now, it can be added as CS4923 taught by Dr. Kolsch.

⁴ Dr. Hale will be offering an advanced topics course (CS4920) on post-quantum resiliency system integration management and strategy in the spring.

⁵ Non-CS/SW courses are shown for information only and are not managed by the CS AA.
