**AT Level I**  
**CONUS Training**

***Introduction***

## About This Training

- Designed by JCS in coordination with OSD and Services
- Designed to increase awareness of terrorism and improve ability to apply personal protective measures
- Meets the annual requirement for Level I antiterrorism training prescribed by DoDI 2000.16
- Complements Web-based and CD-ROM training

## Learning Objectives

- Understand the terrorist threat
- Understand how to employ situation-based measures to lower your vulnerability
- Recognize proper responses to threat actions
- Understand how to support unit security

# ANTITERRORISM

## Introduction to the AT Level I Training

***America's effort to fight terrorism includes everyone***

Threat is a real and present danger

Remain vigilant while executing responsibilities

International terrorist network may be present where you serve

Personal safety is important

- Remain alert
- Be aware of your surroundings
- Report suspicious activity
- Pay attention to antiterrorism briefings
- Make security part of your routine

Do not be a tempting target!

## Threat Factors

***The 2010 attempted bombing of Times Square in New York***

There are eight factors you should consider to understand the threat.

1. Are terrorist groups in the area?
2. Are they violent?
3. Do they attack Americans?
4. How active are they?
5. How sophisticated are they?
6. Are they predictable?
7. Will local citizens warn Americans?
8. What tactics and weapons are used?

## How Terrorists Identify and Select Targets

***While overseas it is advisable to conceal your DOD affiliation***

Consider ways you might become a victim of a terrorist attack.

- Location: Avoid possible target locations
- Association: Avoid disclosing your DOD or US Government affiliation
- Opportunity: Terrorists look for "soft targets"

To attack you, terrorists generally must perceive you, your association, or your location as a target.

## Combatant Command Overview

***Threats vary in different parts of the world***

DOD personnel and assets have been targeted in virtually every region of the world.

- When traveling, you should receive a Combatant Command terrorist threat briefing 90 days prior to departure
- Modify your personal protective measures based upon the information in these briefings

## NORTHCOM Region

***In 2001, anthrax tainted letters were sent to several prominent individuals***

Within the United States, several organizations and individuals use terrorist tactics to achieve their goals.

Prior attack methods include:

- Vehicle bombs
- Letter bombs
- Skyjacked aircraft
- Biological weapons

Prior attacks in NORTHCOM include:

- Plot to attack Ft Dix
- United Flight 93
- Oklahoma City Bombing

## CENTCOM Region

***Terrorists used a VBIED to attack Khobar Towers in 1996***

Within the CENTCOM Region, the primary terrorist threat is from Islamic extremists.

Prior attack methods include:

- Vehicle bombs / IEDs
- Assaults with small arms
- Kidnappings
- Murder

Prior attacks in CENTCOM include:

- USS Cole
- Deir el-Bahri
- Khobar Towers

## EUCOM Region

***Suicide bombers attacked the London mass transit in 2005***

The EUCOM region threats include traditional nationalist, ethnic, and leftist terrorist groups.

Prior attack methods include:

- IEDs
- Suicide bombers
- Kidnappings
- Assassinations

Prior attacks in EUCOM include:

- London subway bombing
- Madrid subway bombings
- Bombing of the La Belle Discotheque
- Attack against CAPT Tsantes

## AFRICOM Region

***In 2002, terrorists targeted the Paradise Hotel and a passenger airliner in Mombasa, Kenya***

Stability in the AFRICOM region is threatened by nationalist, tribal, and ethnic groups. The region is also threatened by Islamic extremists.

Prior attack methods include:

- Vehicle bombs
- Kidnappings
- Arson / sabotage
- Murder

Prior attacks in AFRICOM Include:

- African embassy bombings
- Paradise hotel

## PACOM Region

***In 2008, terrorists attacked multiple targets in Mumbai, India including the Taj Mahal Hotel***

Primary threat from various religious extremists and separatists.

Prior attack methods include:

- Vehicle bombs / IEDs
- Kidnappings
- Murder
- Biological weapons

Prior attacks in PACOM include:

- Multiple attacks in Mumbai, India
- Bali nightclub bombing
- Attack on Japanese subway

## SOUTHCOM Region

***Narcoterrorism, demonstrated by the 2011 Casino Royale attack in Mexico, is a growing concern***

The primary terrorist threat in the SOUTHCOM region is narcoterrorism and radical leftist groups.

Prior attack methods include:

- Bombings
- Arson
- Assassination
- Kidnapping

Prior attacks in SOUTHCOM include:

- Diplomatic residence in Lima, Peru
- Albert Schaufelberger
- Zona Rosa

## Terrorist Planning Cycle Overview

### THE TERRORIST PLANNING CYCLE:

1. BROAD TARGET SELECTION
2. INTELLIGENCE AND SURVEILLANCE
3. SPECIFIC TARGET SELECTION
4. PRE-ATTACK SURVEILLANCE AND PLANNING
5. ATTACK REHEARSAL
6. ACTIONS ON THE OBJECTIVE
7. ESCAPE AND EXPLOITATION

***Terrorists prepare for and conduct attacks through predictable steps***

Be alert to signs of intelligence gathering, surveillance, collecting materials for attack, and rehearsals:

- Taking photos or videos of potential targets
- Writing notes or sketching
- Showing abnormal attention to details of security measures
- Using false identification
- Paying cash for items normally bought on credit
- Purchasing large quantities of items such as chemicals or cell phones

## Terrorism Planning Cycle – Phases 1 and 2

***Murrah Federal Building in  
Oklahoma City prior to vehicle  
bomb attack***

### Phase 1: Broad Target Selection

- Terrorists collect information on numerous targets
- Evaluate target potential in terms of symbolic value, casualties, infrastructure criticality, or public attention

### Phase 2: Intelligence Gathering and Surveillance

- Targets able to meet attack objectives are selected for additional surveillance
- Terrorists seek information on guard forces, physical layout, personnel routines, and standard operating procedures

### Phase 3: Specific Target Selection

- Specific targets identified based on anticipated effects, publicity, consistency with objectives, and costs versus benefits

### Phase 4: Pre-attack Surveillance and Planning

- Terrorists may conduct additional surveillance to confirm previous information and gain additional details
- Terrorists select attack method, obtain weapons and equipment, recruit specialized operatives, and design escape routes

## Terrorist Planning Cycle - Phases 5 & 6

***A diagram drawn by McVeigh showing the configuration of the vehicle bomb***

### Phase 5: Rehearsals

- Terrorists rehearse the attack scenario to confirm planning assumptions, enhance tactics, and practice escape routes
- May also trigger an incident at the target site to test response actions

### Phase 6: Actions on the Objective

- Terrorists execute attacks when conditions favor success with the lowest risk
- Factors include surprise, time and place, use of diversionary tactics, and ways to impede response measures

## FPCONs

***Terrorists used a VBIED to attack Rhein-Main Air Base in 1985***

US military facilities use protective measures organized in a system called Force Protection Conditions, or FPCONs.

As the threat of attack changes, Commanders change the FPCON to protect personnel.

FPCONs are organized in five levels with increased protection at each level: NORMAL, ALPHA, BRAVO, CHARLIE, and DELTA.

## National Terrorism Advisory System

***The NTAS replaces the original HSAS***

The National Terrorism Advisory System (NTAS), replaces the color-coded Homeland Security Advisory System.

Alerts will be issued when credible threat information is available. Alerts will provide recommended steps to help prevent, mitigate or respond to the threat.

Alerts will be issued through:

- media and official channels
- email alerts
- social media websites

The NTAS applies to the United States and its possessions. For international travel, consult State Department travel advisories.

## AT Fundamentals Introduction

### Antiterrorism Level I Themes

	<b>Anticipate</b>	Anticipate foreseeable threats, make choices that reduce risk
	<b>Be vigilant</b>	Remain alert, note changing conditions and suspicious activities
	<b>Don't be a target</b>	Be anonymous, control access, be unpredictable
	<b>Respond &amp; Report</b>	Respond appropriately, report suspicious or threatening activities

***AT Level I themes: Anticipate; Be Vigilant; Don't be a Target; Respond and Report***

### Modules presented:

- Surveillance detection
- Security at a Government facility
- Residential security
- Off-duty / free time activities
- Air travel security
- Ground travel security
- Hotel security
- Hostage survival
- CBRNE

## Anticipate

***Several sources allow you to research threats for yourself***

Anticipating threats, risks, and vulnerabilities is fundamental to antiterrorism and personal security.

Ways to do this include:

- Research criminal activity
- Understand the tactics and techniques
- Know types of targets and locations

Consider consulting these sources:

- Police crime reports
- Other internet and media resources

Anticipate

Be Vigilant

Don't be a Target

# ANTITERRORISM

## Be Vigilant

***Vigilance can thwart many terrorist attacks***

Vigilance is required to continuously observe your surroundings and recognize suspicious activities.

Understand your environment's normal conditions.

Knowledge of the normal amplifies abnormal activities.

- Items that are out of place
- Attempted surveillance
- Circumstances that correspond to prior criminal activity in your area

Informed vigilance is fundamental to personal security.

Anticipate

Be Vigilant

Don't be a Target

Respond & Report

# ANTITERRORISM

## Don't be a Target

***DOD affiliation may identify you as a potential target***

Blend in with your surroundings.

- Do not wear clothing or carry items that attract criminal attention
- Remain low key
- Avoid high criminal locations

Reduce your vulnerability and exposure:

- Select places with security measures
- Be unpredictable
- Travel in a small group
- Use automobiles and residences with adequate security features

Anticipate

Be Vigilant

Don't be a Target

Respond & Report

# ANTITERRORISM

## Report and Respond

***The Fort Dix attack plot was thwarted by an alert store clerk***

Report suspicious activities to appropriate authorities.

- Report suspicious activity, do not try to deal with it yourself
- In threatening situations, take steps to reduce your exposure
- Follow the instructions of emergency personnel and first responders

Security is a team effort.

Personnel surveillance to determine:

- Residential security measures
- Modes of travel
- Routes and times of travel
- Typical behavior
- The target's security awareness

Facility surveillance to determine:

- General security posture
- Security SOPs
- Information on force shift rotations
- Physical security weaknesses
- Reaction times to emergencies

## Surveillance Detection Fundamentals

***Terrorists performed surveillance of Fort Dix, New Jersey***

Be vigilant for anything that might be a sign of surveillance:

- People loitering in the same general area without a recognizable legitimate reason
- People that appear preoccupied with a specific building or area
- Certain civilian vehicles that seem to appear repeatedly
- Electronic audio and video devices in unusual places

## Methods of Surveillance 1

***Terrorists performed surveillance of Fort Dix, New Jersey***

Surveillance may be conducted over a long period of time and employ various methods:

**Stationary surveillance:** a common method in which operatives observe from a fixed location.

**Moving surveillance:** conducted on foot or in vehicles.

Vary your routes and routines!

## Insider Threat Introduction

***The Hart Senate Building was closed for more than three months following the 2001 anthrax attacks***

An Insider Threat uses access, wittingly or unwittingly, to harm national security through unauthorized disclosure, data modification, espionage, terrorism, or kinetic actions resulting in loss or degradation of resources or capabilities.

Attacks allegedly perpetrated by individuals thought to be loyal to the US include:

- 2010 leaking of over 500,000 documents concerning operations in Iraq and Afghanistan
- November 2009 Active Shooter attack at Fort Hood
- March 2003 Active Shooter attack at Camp Pennsylvania in Iraq
- September 2001 anthrax attacks against Government facilities; perpetrator possibly associated with USG

## Insider Threat Introduction

***The Hart Senate Building was closed for more than three months following the 2001 anthrax attacks***

Motivations for the insider threat vary by incident, but common motivations include:

- Desire to further a political or religious agenda
- Ability to exert power to influence events
- Perceived injustices against oneself or a minority group
- The need for excitement
- The belief that one knows better what US foreign policy should be
- The desire to commit suicide

Individual awareness and active leadership are key defenses to the Insider threat

## Types of Insider Threats

*In 2010, the National Museum of the Marine Corps was targeted by a drive by shooter*

There are at least four types of Insider Threats as they relate to antiterrorism.

**Terrorism Intended to Coerce or Intimidate:**

Persons who plot and execute attacks to further the agenda of an extreme ideology.

**Mental Instability:** Persons that have a mental illness that impairs their judgment and causes them to initiate activities they may not otherwise perform.

**Espionage:** The divulgence of classified or sensitive information that may result in attacks or provide information on vulnerabilities that facilitate an attack. Motivations may be financial or ideological.

**Negligence:** Persons that disregard standard security measures that potentially allow the collection of vulnerability-related information or information that could precipitate an attack.

## Recognizing Political / Religious Extremism

***Serdar Tatar, convicted for a plot against Fort Dix, accessed the installation through a job delivering pizzas***

Recognition of an Insider Threat can prevent an incident. Pre-attack indicators include:

- Anti-American statements asserting that US policy illegitimate
- Aggression or threats toward coworkers
- Presence of unauthorized weapons
- Attempts to communicate with US enemies or associations with known extremist groups
- Distribution of propaganda materials in support of an extremist position
- Allegations of US persecution against a minority group or religion
- Repeated violation of policies

If you perceive an immediate violent threat, alert security personnel or law enforcement personnel immediately.

## Recognizing Mental Instability

***Abuse of alcohol and drugs is a possible indicator of the insider threat***

Indicators of a potentially mentally unstable person often include:

- Abnormal mood swings, depression, withdrawn behavior, decrease in hygiene, paranoia
- Flashbacks to prior traumatic events
- Abuse of alcohol or drugs
- Repeated violation of policies
- Talk of domestic or financial problems
- Talk of suicide

If you witness behavior that might indicate an unstable person, alert your supervisor or appropriate medical personnel immediately.

### Indicators of the Insider Threat

- ✓ Abnormal mood swings or depression, withdrawn behavior, decrease in hygiene, paranoia
- ✓ Flashbacks to prior traumatic events
- ✓ Abuse of alcohol or drugs
- ✓ Repeated violation of policies
- ✓ Talk of domestic or financial problems
- ✓ Talk of suicide
- ✓ Anti-American statements asserting that US policy and authority is illegitimate
- ✓ Aggression or threats toward coworkers
- ✓ Presence of unauthorized weapons
- ✓ Attempts to communicate with US enemies
- ✓ Prejudice against a minority group or religion

***Knowing indicators of the Insider Threat can help recognize a threatening situation***

What would you do to counter the Insider Threat?

- 1) Wait for guidance to be issued from your supervisor or local security personnel
- 2) Learn to recognize indicators that might represent an Insider Threat
- 3) Carefully monitor the activities of your fellow colleagues

An Active Shooter incident can occur at any time and at almost any location:

- March 2011 shooting of Air Force personnel at Frankfurt Airport in Germany
- November 2009 shooting at the Soldier Readiness Center in Fort Hood, Texas
- June 2009 shooting at the Holocaust Museum in Washington, D.C.
- May 2009 shooting of soldiers outside a military recruitment center in Arkansas
- 2007 plot to attack Fort Dix using automatic weapons

It is unlikely that you will be involved in an Active Shooter incident, but you should be prepared for the possibility.

## Active Shooter Fundamentals

***If you are in an exposed position,  
try to seek cover in a place that  
can be sealed off or barricaded***

Responses to an Active Shooter include:

- Evacuate, shelter in place, take action against the active shooter

Adapt your response to the weapons used:

- Ricocheting bullets tend to hug the floor; crouching on the floor may reduce exposure
- Grenade shrapnel rises from the detonation; lying on the floor reduces exposure

An active shooter situation may be over within 15 minutes, before law enforcement arrives.

- Have a route and plan in mind
- Evacuate regardless of whether others follow
- Leave your belongings behind
- Help others escape, if possible
- Prevent others from entering the area
- Follow instructions of police officers
- Do not move wounded people
- Call 911 when you are safe

## Responding to an Active Shooter 2

***If necessary, you should be prepared to shelter in place***

### Shelter in Place:

- Be out of the shooter's view
- Not trap you
- Have locks on the door
- Have furniture to blockade the door
- Silence your cell phone, hide behind large items, remain quiet and calm

### Take action against the active shooter:

***Consider the local threat when selecting your home***

In selecting a new residence, some security considerations include:

- Location in a low crime area
- Access to emergency services
- Security measures such as visitor control
- Strong crime prevention measures

Well-maintained neighborhoods with effective community organizations generally have lower crime rates. Even so, lax security can make your home a target for criminal break-in.

Through social media, users can inadvertently provide information on:

- A current operational mission
- A facility's mission / infrastructure
- Your schedule and routines
- Family / personal information

Consider the following:

- Limit profile information / “friending”
- Use high profile security settings
- Never post OPSEC sensitive data
- Monitor internet usage of family members
- Report suspicious activity

Online information can be used to plan and execute an attack against yourself, your family, or your unit.

In 2002, the US post office was used to deliver anthrax laden letters to multiple targets.

In 1995, Timothy McVeigh detonated a massive VBIED in Oklahoma City killing 168 persons.

A chemical attack has not yet occurred on US soil, but the 1995 Sarin nerve gas attack in the Tokyo subway demonstrates the threat.

***Responders in protective gear at the Hart Senate Office Building during the 2001 anthrax attacks***

The exact nature of a CBRNE attack may be hard to determine. Regardless of the nature, you can protect yourself by:

- Covering as much of your body as you can, especially your nose and mouth
- Washing any exposed part of your body with soap and water
- Seeking medical attention as soon as possible
- Following instructions of local authorities and first responders
