The DOD stop movement order has been extended to 30 June 2020 and might yet be extended further [Reference: SECDEF Memo 20 April 2020].

Housing in Monterey WILL BE AN ISSUE. The stop movement order has prevented both our March graduates AND our June Graduates from leaving Monterey, so available rentals both government and public are scarce. You will likely be in temporary housing until mid-July and possibly into August.

NPS remains open and operating. **Classes will start on 6 July.** Incoming students should make every effort to establish themselves within the local Monterey area to start on time.

Please work with your chain of command and contact your detailer (branch manager, controller, as appropriate) to **initiate an exception to policy / waiver request** in order to report as previously ordered or **modify your attendance to a later cohort.**

If the stop movement order prevents them from arriving by 6 July, incoming students should seek a later start date (Fall/Winter as appropriate for their curriculum). **Because we will not be 100% DL, remote starts will be the rare exception and only in limited curricula, short courses and certificate programs.**

We will begin sending our welcome packages (emails) in early May to those in our June cohort that we expect to arrive in residence.
