

Breaking the Belligerent Bear

U.S. and Allies counter Chinese aggression in South and East China Sea

Wargame Objective

This MARFORPAC sponsored wargame seeks to determine the extent that an in-transition-to Force Design MARFORPAC will be able to contribute to the Theater Joint Force Maritime Component Commander's (TJFMCC) mission.

Wargame Scenarios

Two separate wargames will be conducted. Wargame #1 focuses on the immediate reaction by MARFORPAC upon notification of Chinese aggression against Taiwan. Wargame #2 focuses on operations that expand further into the South China Sea 1 week after initial Chinese aggression. Games will be conducted in a closed-information format to enable a fog-of-war effect and allow open discussion within the teams without revealing intentions to opposing players. In both wargames, each side will fight for control over their respective operational areas.

BLUFOR PLAYERS

U.S. Marine Corps Forces, Pacific Commander
(MARFORPAC)

MARFORPAC Operations Officer/ Allied Commander
(Game2)

VS

Peoples Liberation Army Theater Commander (PLA)

Theater Commander Operations Officer
