Open Position for Assistant Professor

**Department of Computer Science
Naval Postgraduate School,
Monterey, CA**

The Naval Postgraduate School (NPS) invites applications for the position of Assistant Professor (tenure-track) in the Department of Computer Science. We encourage all qualified candidates to apply, and are especially interested in candidates with background in cyber security, networking, theory, or emerging areas of computer science.

Our students consist primarily of U.S. and international military officers seeking master's degrees, U.S. civilians entering the Cyber Corps who already have bachelor degrees or higher and are seeking master's degrees, and a few PhD students. We specialize in cyber security, networking, modeling and simulation, artificial intelligence, software engineering, and data science. Through research, we foster close collaboration with our military, civilian, and international counterparts, supported by state-of-the-art national and international laboratories. NPS is located close to the technology hubs of San Jose and Silicon Valley, and are very well connected in the US Navy and DoD cyber security and big data communities. We are a growing faculty of 45, with 20 tenure track professors.

We seek to fill the position by June 2023 and will consider applications beginning 01 October 2022. In your application package include your CV, names of three references, and a sample of your published work. Discuss in your cover letter why you are interested in this position and comment on your initial research goals, teaching interests, and capabilities.

Minimum qualifications:
- Must have a PhD in computer science or a related discipline.
- Must currently hold or be eligible for a U.S. Secret clearance.
- Must be a U.S. citizen

Email your application package to Dr. Geoff Xie, the Search Committee Chair: xie@nps.edu

The Naval Postgraduate School is an equal opportunity employer. For additional information about NPS, please refer to the website at http://www.cs.nps.edu. Applicants who are veterans are strongly encouraged to identify your Veterans' Preference on your CV or elsewhere in your application package, including type of preference, dates of service, date of VA letter, character of service and other relevant information.
