

Common Items that Requires Safety Office Review in KFS

The following is a list of the most common items that requires one of the Commodity Codes for Safety Review. This is not a complete listing. A more detailed listing of keywords and topics can be found on the following page. If there is any doubt, email safety@nps.edu

- **All Personal Protective Equipment (PPE) (requires “SAFETY” Commodity Code):** this including hardhats, steel toe boots, eye protection, hearing protection, and respirators (including disposable dust masks.)
- **All Cleaning Supplies (HAZMAT Commodity Code):** These items require review by the Hazmat Program Manager for inventory supply and Authorized Use Reasons. Many common cleaning supplies have special handling (requiring PPE) and storage requirements.
- **ALL batteries** and items or equipment that contain batteries that are purchased at NPS, must be marked with the **Commodity Code “HAZMAT”** in Kalui Financial System (KFS) so that the appropriate reviews can occur and any additional actions can be taken to ensure regulatory compliance. Proper disposal procedures need to be understood by the end user at the point of acquisition to ensure complete life-cycle management.
- **All Lasers (requires “LASER” Commodity Code)**
- **All Equipment that are Radio Frequency Sources (transmitters) (“SAFETY” Commodity Code)**
- **All Sources of Radiation (“RADIATION” Commodity Code)**
- **ANYTHING EXPLOSIVE! (Use the “SAFETY” Commodity Code)**

ANYTHING THAT...

- Flies
- Is an Unmanned Vehicle
