General NPS Procedures
Covid 19 Response

For detailed NPS Procedures: https://nps.edu/web/safety/coronavirus

1. Remove Vulnerable Populations
Susceptible populations have a higher probability of infection and of severe outcome. Personnel who have weakened immune systems and certain risk factors have a higher probability of contracting the disease and should stay home.

2. Remove the Source
Screen yourself and determine if you have been exposed, by asking:
- Have you had a fever in the past day?
- Have you had close contact with or live with anyone who is sick?
- Do you have a new or worsening cough today?
- Do you have any other COVID symptoms?

3. Control the Environment
Open windows and doors to create air flow ensure the HVAC system is working properly. Establish a schedule for use to allow for 6 ft of distancing.

4. Follow Cleaning Procedures
Clean and disinfect (as appropriate) at beginning of day and at end of day.

5. Important Numbers
- CNRSW Regional Dispatch Center: 831-656-2555
- N3 Operations: Security Officer 831-656-2236
- Safety: 831-656-7758
- HAZMAT: 831-656-7661
- Emergency Operations Center: 831-656-2822
- Facilities Trouble Desk: 831-656-2526
- NPS Command Duty Officer (CDO): 831-901-6649
