CYBERSECURITY STRATEGY DEVELOPMENT

RESIDENT: N/A

MOBILE: P309470

CERTIFICATION: PME, RDFP

This course is for nations that are interested in designing effective cyber strategies consistent with their national security strategy and their organization's mission/vision. The course can be tailored for partners who request assistance in drafting and revising cyber strategy.

OBJECTIVES

Upon conclusion of this course, participants will be able to:

- ◆ Understand military doctrine and cyber strategy
- ◆ Know the laws, regulations, and policies that relate to cybersecurity
- ◆ Explain and apply strategic design theory and practice
- ◆ Be familiar with the operational impacts of cybersecurity lapses
- ◆ Understand cyber workforce development
- ◆ Use capabilities in developing cyber strategy aligned with operational environment and national security priorities

TOPICS

The delivery format combines lectures and practical frameworks. A strategic design component allows participants to identify and implement aspects of a comprehensive approach for designing a cyber strategy. Course topics may include:

- ◆ Cyber law, regulation, and policy
- ◆ Strategic design theory
- ◆ Cyber threats and vulnerabilities
- ◆ Cyber workforce development
- ◆ Cyber strategy frameworks
- ◆ Cyber deterrence

PARTICIPANTS

The course is designed for senior international officials from ministries of defense, foreign affairs, and communications. Public and private sector representatives responsible for cyber are welcome to attend.

ISG PROGRAM AREAS

ISG's tailored education and professional development programs support the sustainment of a comprehensive knowledge base and strengthen partner capacities to confront complex security and defense challenges. Engagements are designed to cultivate individual understanding of complex issues, foster peer-to-peer learning, and build international communities of interest.

FACULTY

ISG has a diverse faculty team grounded in professional experience from academic, military, government, and civil sectors. The core faculty are augmented by experts drawn from other parts of government, and U.S. and international subject matter experts drawn from universities, industry, think tanks, international organizations, and non-governmental organizations.

ENROLLMENT

Courses are conducted as part of the U.S. Government's Security Cooperation efforts. Interested partner nation personnel should contact their government's international cooperation section, or the relevant U.S. Embassy's security/military cooperation office for selection processes and enrollment. Interested U.S. citizens may contact ISG to discuss availability.

FUNDING

Educational programs are primarily implemented through Title 22 authorized programs (International Military Education and Training, Foreign Military Sales, Peacekeeping Operations) and various Title 10 authorized programs such as the Maritime Security Initiative (MSI) and Regional Defense Fellowship Program (RDFP).

ABOUT ISG

The Defense Security Cooperation University's (DSCU) Institute for Security Governance (ISG) is the Department of Defense's leading implementer for Institutional Capacity Building (ICB) and one of its primary international schoolhouses. As a component of the Defense Security Cooperation Agency (DSCA), ISG is charged with building partner institutional capacity and capability through tailored advising, education, and professional development programs grounded in American values and approaches.
