STRATEGY, CAPABILITY & MULTI-DIMENSIONAL THREATS (SCM-DT)

RESIDENT: P179896

MOBILE: N/A

ELIGIBLE FUNDING: IMET, FMF/FMS, RDFP

CERTIFICATION: PME, CTIWFP/RDFP

This four-week course aims to equip participants with the skills and knowledge needed to identify complex and interactive threats, analyze and identify the institutional gaps required to meet those threats, and prepare appropriate responses at the strategic and operational levels. Multidimensional threats include those at the intersections of irregular warfare, cyber threats, hybrid threats, disinformation, transnational crime, terrorism, and displaced persons. These threats require an interagency, “whole-of-government,” and regional approach.

OBJECTIVES

As an outcome of this offering, participants will be able to:

- ◆ Thoroughly understand the complexity of existing and emerging threats
- ◆ Formulate appropriate strategies for the security cooperation arena
- ◆ Successfully navigate and collaborate across complex government and civilian institutional relationships
- ◆ Integrate accountability and resiliency into institutional capabilities

TOPICS

Using a combination of case studies, lectures, small group exercises/activities, structured discussions, and workshops, this course examines both general and specific topics. These topics may include:

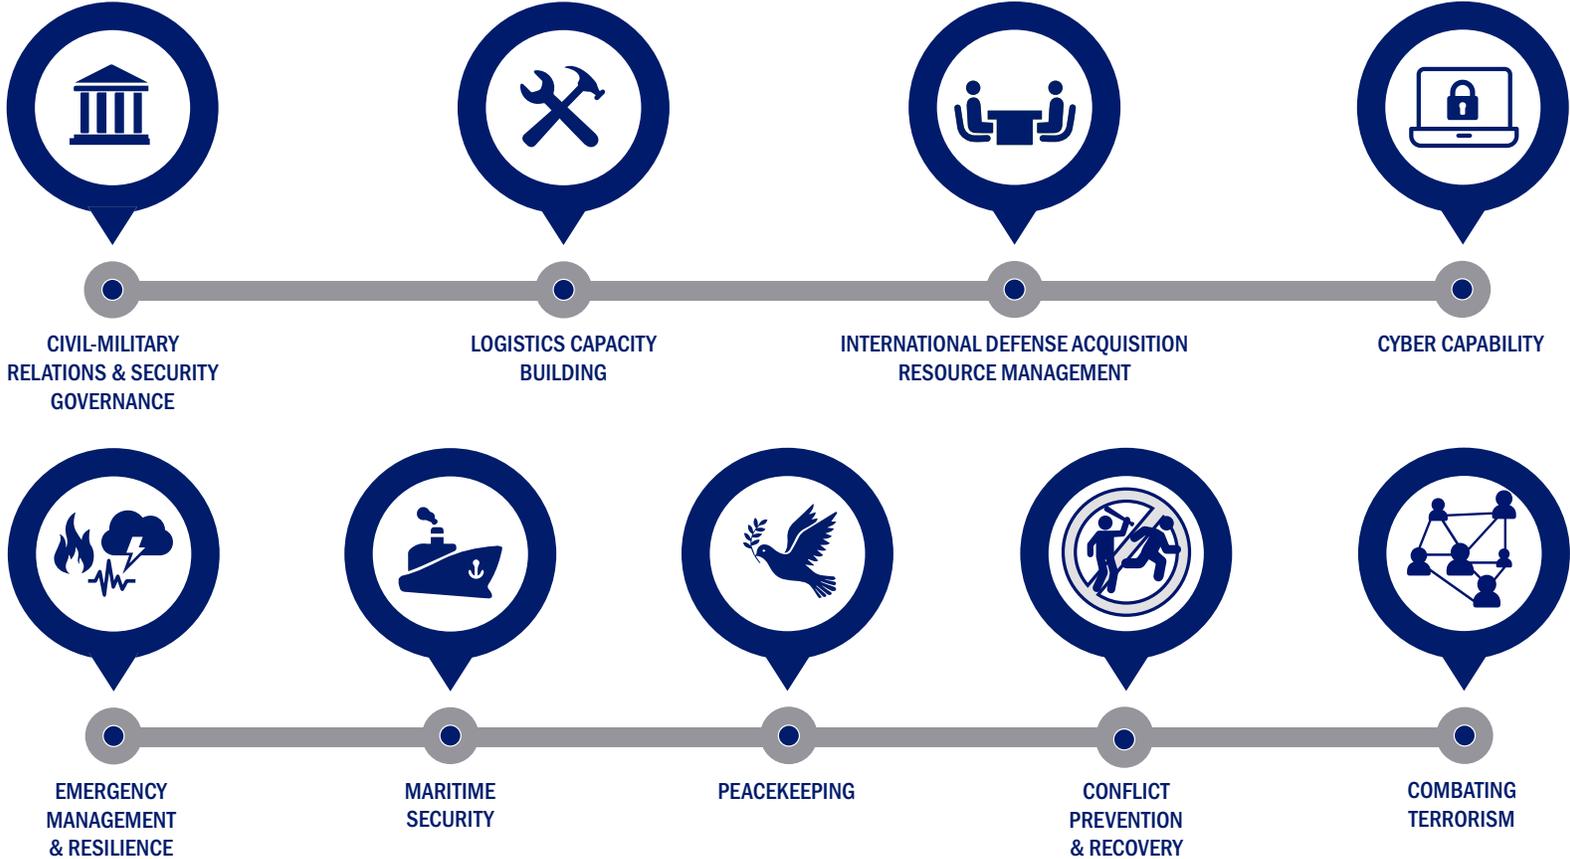

- ◆ All-hazards risk and threat assessment
- ◆ Terrorism, insurgency, and organized crime
- ◆ Network analysis
- ◆ Virtual, cultural, geographic, and bureaucratic borders
- ◆ Challenges and conditions imposed across land, sea, air, and cyber domains
- ◆ Sovereignty and international protection obligations

PARTICIPANTS

The course will be conducted in English and is recommended for mid- to senior-level leaders, planners, and staff (O-4 to O-8), and civilian equivalents from the public and private sectors engaged in areas related to managing, responding to, or formulating/implementing strategy for multi-dimensional threats.

ISG PROGRAM AREAS

ISG programming has been developed over 25 years by providing military and civilian officials with unique education and professional development programs. Courses are designed to cultivate individual understanding of complex issues, foster peer-to-peer learning, and build connected networks of international peers through a professional learning environment.

FACULTY

ISG has a diverse faculty team grounded in professional experience from academic, military, government, and civil sectors. The core faculty are augmented by experts drawn from other parts of government, and American and international subject matter experts drawn from universities, industry, think tanks, international organizations, and non-governmental organizations.

ENROLLMENT

Courses are conducted with partner nations as part of the US Government security cooperation effort. Participation in ISG courses is managed through the Security Cooperation Office of the US Embassy in-country. Interested partner nation personnel should work through their government's international cooperation section, or the relevant US Embassy's security/military cooperation section for selection processes and enrollment. Where appropriate, ISG reserves limited space in courses for US citizens. Interested US citizens may contact ISG to discuss availability.

FUNDING

ISG can accept most types of US Government funding. Courses are typically funded by IMET, FMF, FMS, CTIWWP/RDFP, PKO, and other DoD-wide O&M funds (333, 332, MSI, etc.). Cost estimates can be obtained by contacting ISG or the applicable NETSAFA Country Program Manager.

ABOUT ISG

The Institute for Security Governance (ISG) is a Defense Security Cooperation Agency (DSCA) schoolhouse, and leading Institutional Capacity Building (ICB) implementer, focused on helping partners build effective and accountable security institutions. ISG's tailored ICB approach supports partners in developing, resourcing, and sustaining the institutional capabilities and professionalization necessary to pursue common security cooperation objectives.
