IAS Policy and Ethics

March TEM Goals and Products

Goals of the March 2021 TEM

- Baseline the community on the Scope of effort and landscape of relevant law and policy
- Engender awareness of the ongoing community work, projects, and efforts in this area
- Expose the DoD community to non-DoD perspectives, uses, challenges, etc.
- Discuss misconceptions across the DoD regarding ethical and policy guidelines for developing IAS
- Identify/Discuss S&T research areas to prioritize to better address ethical considerations:
 - *E.g ... Human Machine Teaming?*

IAS Policy and Ethics

March TEM Goals and Products

Desired Products from March 2021 TEM

- Critical input and feedback on scope of effort, problems to be solved, and question sets.
- Preliminary “test use cases” against which to assess recommendations (potentially inclusive of development of or modifications/clarifications of principles or policies)
- Awareness/working list of local and international efforts in this area
