The curriculum matrix is subject to change due to NPS scheduling and staffing conflicts.

Graduation: JUNE 2027

How to interpret credit #: Following the course number are two numbers in parentheses separated by a hyphen, which indicate the hours of instruction per week in the classroom and in the laboratory, respectively. When calculating quarter-hours for the credit value of the course, laboratory hours are assigned half the value shown. Thus a (3-2) course, having three hours lecture and two hours of laboratory, will be assigned a credit value of four-quarter-hours.
